

DROGHEDA CO, LOUTH - NATIONWIDE SERVICE

086 360 8811 toptacwelding@outlook.ie

Toptac Welding is a CE certified company, accredited to EN 1090 for structural steel up to Execution Class 2

ABOUT US

We started as a small independent run business and have since grown to a well established limited company.

At Toptac Welding we have a highly skilled workforce combining over 100 years of experience in domestic and commercial manufacturing.

Our team is dedicated to meet the exact requirements of the clients, from design stage to the manufacturing and installation. With CE certification EN 1090 we guarantee the highest quality product and service. Priding ourselves in customer satisfaction and professionalism.

We have recently relocated to a 10,000 sq ft workshop in Greenhills, Drogheda and have obtained the most innovative technology and machinery to meet our demanding market. With our growing team we can offer a nationwide service.

We cover it all, from welding repairs and domestic projects to large scale commercial contracts, no job is too big or too small.
